

Remote Viewing Can Lead To Hearing Voices

(Poem)

Just yesterday

I read an account

On the internet

From a man

Who was hearing voices

Pretty much.....

Just like I hear them

These voices at times

Were dominating

Bullying

And deceiving as hell

He mentioned

How they concocted stories

Always with the stories

The voices always had

These stories

Like implanted mind games

For the mind to ponder over

Wear itself down

And hit a dead end

I had heard

These kinds of stories

I knew

This trickery well

These stories

Meant to confuse

Mean to infiltrate

Meant to wreak havoc

With peace of mind

But.....

The stories

Always fall short

From the false spirit guides

I had begun to hear them

After recording for EVP

He had begun to hear them

After remote viewing

Two different actions

Brought on

The same kind of voices

Through remote viewing

An encounter

May be had

With the false spirit guides

At first.....

When you hear them

They may sound.....

Benevolent

Kind

Enlightened

But once they get it

To your perceptions

They may sound

Cruel

Negative

Hostile

Dominating

Malicious

And among other things

It seems

Remote viewing

Can bring on

Such bad dreams

Even when awake
